Art Unit 1504

Claims 1-37 and 46-64 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, the phrase "laminate comprising at least one nonelastomeric skin layer and at least one of least partially elastomeric core layer etc" is unclear as to meaning. What is meant by "preferential activation zone"?

Claims 21-24 and 46-56 have been combined with product claims 1-20, 25-37 and 57-64.

The restriction requirement between the article and method claims are still considered proper and is now made FINAL.
